

## **The Goose Community Grocer Round Up Program Application**

The Goose Community Grocer provides opportunities for community organizations to raise funds through donations made at the cash register, by “rounding up” the total purchase amount with a gift to the designated charity of the month. The selection is made on a rolling basis according to Goosefoot’s annual priorities and emergent community needs. The contributions, however, are considered for tax deduction purposes as a direct contribution from customer to applicant.

As of October 2022, applications will be accepted on a rolling basis and participants will be selected on a semi-annual basis in December and June. Selected organizations are encouraged to promote their Round Up month and will have a designated amount of space at the store to advertise their participation.

Applications will be kept on file, but applicants are encouraged to re-apply with information updates if appropriate.

Nonsecular organizations, arts organizations, and private schools are ineligible for selection.

Applicant organizations must be a 501(c)(3) nonprofit and its mission must address at least one of these criteria:

- Growing Local Businesses
- Addressing People’s Basic Needs
- Preserving Great Places
- Demonstrating justice, equity, diversity and inclusion in leadership and activities
